Tilt-Out Fabric Hamper

Our Hamper Bag keeps laundry out-of-sight and out-of-mind, hiding behind a closed, hinged cabinet hamper door. It is shaped like a basket, but it feels like a tote bag with its fully-lined, woven black fabric and soft mesh side panels. Garment ventilation and viewing are improved with the elegant, matte black steel frame maintaining its slanted rim shape (for clearance of the shelf above the hamper door). Best of all, it's a snap to install and use. Simply lift the bag from its frame using the fold-down handles to carry the contents off for washing. It's that simple.

Premium Swivel Closet Mirror

The Premier Swivel Closet Mirror is available in two heights and makes space where none exists for a wardrobe mirror. Fastening to a side wall or a panel, our mirror uses only three inches of horizontal storage space, about the same as a stowed ironing board tucked away. When needed, pull out on full-extension, soft-close ball-bearing slides and then swivel ninety degrees to face you. When you are finished viewing, simply pivot it back and give it a nudge to return it to its hiding place.

Slider M50+ System

- * Sliding system for a floor cabinet.
- * Maximum Door Height for tracks up to 1500mm = 2200mm (86").
- * Maximum Door Height for tracks 1600mm-4000mm = 3000mm (118").
- * Door Width = Min. 60mm (23 5/8 inches) Max. 2000mm (78 3/4").
- * Maximum Door Thickness with Handle = 45mm (1.7").
- * Maximum Door Weight = 50kg (110 lbs).
- * Doors can be made of wood, glass (aluminum frame), or clipper doors. The minimum profile width for aluminum doors = 2".
- * The clipper doors are only available on track lengths of 1600mm-3000mm.
- * Width of the track is based on the internal dimension of the cabinet.
- * There is more flexibility in building your cabinet with this system. On the smaller sizes (1200-1500), the tracks are in increments of 100, so you can fall anywhere between. On the larger sizes (1600-4000), the tracks are in increments of 200, so you can have a custom size cabinet but you do not need a custom length track.

Ceiling Storage Units

Bins not included.

The Super Pro Ceiling Storage Units feature a unique design and floating rail system that allow for installation in any garage, with any ceiling truss design, even on pitched ceilings. The down-rod supports can be installed anywhere along the frame rails and all units adjust from 24" to 44" in height. An integrated capture rail helps ensure content do not fall. Made of durable steel with an attractive, scratch resistant power coated finish these units can hold between 300 – 600 lbs. when evenly distributed.

Titebond® Original Glue

Titebond Original Wood Glue is the industry standard for wood-working. It provides a strong initial tack and fast speed of set to reduce clamp time. It also develops a bond stronger than the wood itself, offers excellent sandability and is unaffected by finishes. It is ideal for wood, hardboard, particleboard, leather, cloth and most other porous materials. Titebond Original is easy to use, non-toxic and cleans up with water.

Titebond® III Ultimate Glue

Titebond III Ultimate Wood Glue is the first one-part, water cleanup wood glue ever offered that is proven waterproof. The waterproof formula passes the ANSI/HPVA Type I water-resistance specification and offers superior bond strength, longer open assembly time and lower application temperature. Non-toxic, solvent free and cleans up with water - safer to use than traditional waterproof wood glues. It provides strong initial tack, sands easily without softening and is FDA approved for indirect food contact (cutting boards). Ideal for both interior and exterior applications.

Putty Pencils

1.6 oz Pencils

Putty Pencils are the easiest way yet to fill countersunk nail holes, joints, etc., and to repair gouges and scratches in interior woodwork and furniture. You can blend them together for custom matches. Use Putty Pencils on damaged woodwork to save expensive refinishing jobs. On new woodwork, use them after the last coat of finish has dried and hardened. Putty Pencils are a blend of six waxes saturated with rich colorants - much more than ordinary crayons can contain. By simply rubbing over a nail hole, joint or scratch, the Putty Pencil fills the repair with colorant and stays put. Wipe away excess with a cloth, and the job is complete. It's that quick and easy. In addition to woodwork, you can use Putty Pencils to repair leather (like scuffed shoes or belts) and vinyl. They can also be used creatively for any number of crafts projects.
